Northamerican Software is proud to announce

the newest addition to the range of programs in their library

Sword : A Sorcerer **WORD** processor by R.L. HENNE Northamerican Software

This program must be rated as one of the most versatile (yet simple) Word Processors available on any computer today. It will handle and control from the simplest of printers to the most complicated programmable printers available now or even in the future. This 4K machine language program will and can dump 2K of text properly formatted to the printer in an instant (for those with buffers). Output either Centronics parallel or Serial routine, included or (an area for custom serial driver routine) is provided for those wishing to use their own drivers.

The program utilizes a compression technique which conserves memory space and will allow full use of memory without filling it with needless spaces. The program features the following:
(all functions are detailed in manual)

- | | | |
|--|--|---|
| (a) Full cursor Editing | (g) Paragraph indent | (m) Programmable page length |
| (b) Character delete and insert | (h) Margins indent
left/right | (n) Manual/auto paging |
| (c) Move to top of text | (i) Auto text centering | (o) Special output mode control |
| (d) Move display window 20
lines forward | (j) Right margin text
justification | (p) Two programmable control
initialization characters |
| (e) Transfer blocks of text | (k) Programmable line
length | (q) 23 - Programmable control
function characters output
to printer |
| (f) Preview text before
printing | (l) Auto page numbering | |
| (r) Tape save & load commands (saves & loads all printer control functions and text) | | |

The programmable control function characters allow for full control of programmable printers. **SWORD** was designed around the I.D.S. 460 **PAPER TIGER** and all of the features (graphics excepted) that this printer is capable of. The 460 Paper Tiger sports proportional character printing, among the multitude of other programmable functions.

Full details will be supplied to those who order the **SWORD** program and specify that it will be used with the I.D.S. 440 or 460.
Registration of the program to the buyer (manual included). **\$ 34.95 U.S.**

TOOLKIT - For the **SORCERER** by Paul Grimshaw through Northamerican Software

One of the most valuable programs that a Sorcerer owner could and should have in his/her collection. Once you've had a taste of the power and ease of this program, you'll probably never turn your machine on without loading this program in first, when writing programs. This program tidies up up the Exidy Basic 'bugs' and now gives you these additional features and commands.

List a,b	Renumber	10 Programmable function keys
Randomize	Link	CRC errors drop back to basic not monitor
Kill a,b	Variables	Clear/home keys do not cause SYNTAX errors
Find/Find \$	Move a,b,c	Character input buffer overflow gives error message and does not crash the program
Step a	Old	RUN/STOP key halts execution or listing until another key is pressed
Auto a,b	Close	

ON SCREEN EDITING - no more retyping

Registration of program to the buyer (manual included). **\$ 69.95 U.S.**

SUPER GRAPHIC SCRATCH PAD by H.A. Lautenbach Northamerican Software
Version 2.2 (five additional function commands added to version 2)

Create the graphic (images/pages) that you always wanted to but refrained from doing so because of the time it would have taken in basic or machine language. This program allows you to save on tape any of 5 (five) keyboards (128 characters each) and any of 7 (seven) video pages. The programing style is one of Machine language and also Basic. Learn how to manipulate graphic pages, as in Machine Language programs.

This program is a perfect match with the I.D.S. 440 or 460 to give you also Graphics Print-out of whatever is shown on the screen. A most educational program for those who wish to update their programing methods.

With manual **\$ 24.95 U.S.**

ORDERS ARE PAYABLE IN U.S. FUNDS ONLY BY CERTIFIED CHECK, MONEY ORDER, VISA OR MASTER CHARGE.

Northamerican Software – Limited Time Offer

(This offer is only valid on orders postmarked on or before November 30, 1981)
 All items marked 'SPECIAL OFFER' will, after November 30, 1981 revert back to regular prices.

GOLF — Anybody for a round? Play 18 holes of GOLF (fully graphic) and complete with all the usual things, such as sand traps, trees, rough ground, streams, lakes and greens with close-up view. Better be prepared to get thrown off the course if you're not good enough or if you hack up the greens with anything but the putter. A single player game in BASIC and machine language. (BASIC & ML) SPECIAL OFFER \$19.95 U.S.

NEW GAMES WITH SOUND EFFECTS

ECHO — Can you remember sequences of sight and sound? Enhance your ability to remember and train your mind. Master this skill with ECHO. Just a few minutes a day will improve and sharpen your mind. Four levels of difficulty. (ML)

SPIDER — WHO'S AFRAID OF SPIDERS? Imagine yourself in a very large room with obstacles all around you. Your objective is to reach the opposite corner and retrieve some money and get back again. Sounds simple enough, doesn't it? Well, you might just get eaten or surrounded. These spiders come out of the woodwork like ants. No matter how many you destroy, they just keep on coming. Fully graphic and with sound. (ML)

Both the above games come complete with a digital-to-analog sound generator (printed circuit board assembled) that plugs directly into the Sorcerer Parallel Port. All that is required is an audio amplifier and you're away to the races. Fully compatible with other software being currently sold. There is also provision to hook TWO joysticks for game input control.
 NOTE: The two programs supplied do not utilize joysticks.

TOTAL PACKAGE PRICE which includes the two programs SPECIAL OFFER \$39.95 U.S.

DISK EXTENDED BASIC 'EXBASIC' ON-SCREEN VISUAL EDITOR

This is the EDITOR that you have been waiting for. This program will modify your EXBASIC and do away with the cumbersome Microsoft editor. You can modify your BASIC programs to your heart's content, just like on some of the other computers. The only pre-requisites are that you have CP/M and are running a 48K or larger system and have of course EXBASIC Ver. 5+. The program comes with full instructions in cassette fashion so that it can be loaded by any disk user. NOT compatible with MBASIC Ver. 5. (ML) SPECIAL OFFER \$49.95 U.S.

EDOS — MICROPOLIS OPERATING SYSTEM

This system will enhance and allow you full use of Exidy ROM PAC BASIC with disk R/W routines. Are you doing it the old way? Very cumbersome to save BASIC programs. Well, at least you now can update and do it the easy way. EDOS comes on 5 1/4 inch disk (16-sectored Micropolis). (ML) \$59.95 U.S.

ZETU — CASSETTE-BASED Z80 ASSEMBLER

Look, an easy-to-use Z80 assembler for the thrifty-minded individual who can't afford those biggies. It will do what the big ones can, and guess what, it does it all in memory. No more two passes to the cassette. A very powerful little guy. Fully documented manual. With on-screen editor. *Disk drives not required.* (ML) SPECIAL OFFER \$29.95 U.S.
